“BOUNTIFUL BUFFET WITH NATIVES”

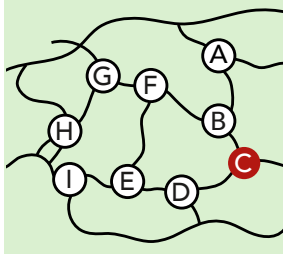

Franciscan Garden Plot C

Sponsor: Pheasants Forever Chapter 590, Sheboygan and Manitowoc Counties

Designer: Marilyn Starzewski, Manitowoc Master Gardeners

Design Intent:

To create a visually attractive well-stocked food plot for birds and pollinators using the native plants which evolved with them. The tree and shrubs were selected for fruit, seed and shelter opportunities. The six grasses provide perches, seeds and year round cover for wildlife as well as color and visual interest. The interspersed flowering plants offer food for native pollinators as well as their larvae. Everyone is welcomed at this all-you-can-eat buffet.
